

COOLVIEW

KNOW WHEN YOUR DRINK IS ICE COLD

KNOW WHEN YOUR DRINK IS ICE COLD. STUNNING VISUAL IMPACT AS THE IMPRINT COMES TO LIFE WHEN AN ICE COLD DRINK IS ADDED!

[HOW IT WORKS]

Submit your art – let us know which part needs to change into color! CoolView looks like satin etch at room temperature. Add an ice cold beverage and watch your CoolView imprint change!

[APPLICATIONS]

Great for:

- Corporate Events
- Beer, Spirits, and Distillery Companies
- Ski Resorts, Golf Courses
- College Campuses
- Municipal Water Services
- Health and Wellness Centers
- Weddings/Anniversaries

[FULL COLOR COOLVIEW]

• Full Color CoolView is stunning! Black and white turns into vibrant color when a cold beverage is added!

• Great on glass or single wall stainless steel and aluminum

[THINGS TO KNOW]

• CoolView can be added to standard imprints or printed on top of a white under-base to achieve the desired effect.

• CoolView is available in many stock colors:

Avoid sunlight, UV light and temperature extremes – Sunlight, UV light, long exposure to fluorescent lights, and very hot or very cold temperatures, will degrade the CoolView effect. Keep in a cool, room temperature location away from direct sun, UV and fluorescent lights.
